Rick Breitenbach, Assistant Director of CalFed  
1416 9th St., #1155  
Sacramento, CA 95814

Dear Mr. Breitenbach:

I am concerned about our state's water. Please try conservation before considering expensive and eco-system-altering dams and reservoirs. Please make sure our water quality is ensured. We all drink water and we need to feel confident we are not going to get sick from drinking poisoned, polluted water. Please try to make realistic projections of future water needs, and tell us all how much water per day is reasonable to use so we know how to be good stewards of our precious gift of water.

Thank you for your help in this important matter.

Sincerely,

  
Kathryn Sawyer
